

Nature made precise.

Kanabo has created a new standard in the medical cannabis industry by developing and manufacturing a medical-grade, unified ecosystem, that allows accurate consumption of cannabinoids through vaporisation, leading to better health and well-being while providing quality and safety.

CBD terpene formulation:

Terpenes are a diverse and large class of organic compounds produced by a wide variety of plants and are not unique to cannabis or hemp. They are typically extracted from cannabis resources through a variety of methods like steam distillation.

Kanabo’s unique formula is a mix of cannabinoids and naturally occurring terpenes commonly found in the cannabis plant and have been selected for specific physiological effects on the body and mind.

<p><b>Relax:</b> This terpene combination has a sweet, piney aroma with a touch of a floral and earthy bouquet.</p> <div></div>	<p><b>Myrcene:</b> The most abundant terpene in modern commercial cannabis and hemp. It’s thought to relieve pain, inflammation, and insomnia and has a calming effect. It’s commonly found in thyme, mango, and lemongrass.</p> <p><b>Terpinolene:</b> A common terpene found in cannabis and hemp. Has mild to moderate relaxing effects and sedative properties, in addition to potentially calming the central nervous system. It is commonly found in sage, lilac, and rosemary.</p>
<p><b>Repair:</b> This terpene combination has a fresh, earthy aroma laced with citrus and cloves.</p> <div></div>	<p><b>Pinene:</b> As its name implies, Pinene is known for its pine tree fragrance. It’s known for its therapeutic benefits to brain health and insomnia. Recent studies shows it to be an anti-inflammatory and that it may support the body’s repair cycle. It’s commonly found in dill, basil, and rosemary.</p> <p><b>Myrcene:</b> The most abundant terpene in modern commercial cannabis and hemp. It’s thought to relieve pain, inflammation, and insomnia and has a calming effect. It’s commonly found in thyme, mango, and lemongrass.</p>
<p><b>Reload:</b> This terpene combination has a fruity, woody aroma with citrusy undertones.</p> <div></div>	<p><b>Limonene:</b> An abundant terpene commonly found in cannabis and hemp. It’s believed to provide stress relief, pain relief and can help with reducing appetite. It’s also found in the rind of a variety of citrus fruits and junipers.</p> <p><b>Ocimene:</b> Known for its antioxidant and anti-fungal effects. It is believed to have energising effects perfect for combating fatigue. It can be found in a variety of herbs and fruits, such as mint, mango, and parsley.</p>
